## Value Engineering at its best

Project Engineering is the core of setting up of a successful Project. Starting right from the Conceptualization, Design, Sourcing of the correct resources, its implementation. That matters. The need of the hour is a competent, responsible expert who can deliver on each of the parameters. Fidesto Projects makes a mark as one of the most reliable names in this genre.

### COMPANY HISTORY

Fidesto Projects Private Limited is a professionally managed Project Management Company. The company provides a 360° vision and approach towards Project Management and Project Development with the motive to serve their respected Clients. Fidesto believes in end-to-end solutions towards Project Management. Fidesto started with a vision of the 3H approach, i.e., Humbleness, Honesty, and Hard Work to provide professional and value-based project management services to all their clients. They act as an extended arm of their clients and work as Single Point of Contact (SPOC) on the client's behalf for the complete Project Management. This includes overall Planning, Design Coordination, Award Management, Progress Monitoring, Controlling Cost, Quality, Safety till the Handover of the Project as a functionally and financially viable project.

Fidesto takes over the project from Conceptualization to design and then the whole development through the active, involved participation of a competent and well-qualified design and execution team. Banking on their experience, Fidesto not only implements its "Standard Operating Procedures" to ensure Design Coordination, Quality, Safety, Progress, HSE, Cost Management, and much more, but also forecasts upcoming challenges, and suggests and advises necessary solutions to safeguard the project.

Value engineering is their culture. They follow the cardinal principles of Value Engineering in their assigned task as money saved is money earned. It is vital to Clients for their Projects' viability.

Fidesto team performs all the tasks of the complete Project with full ownership. It has been observed and appreciated by clients. They also ensure the implementation of "Good Design Coordination" and "Good Construction Practices". They have earned the trust of clients by relieving them of the responsibility of overlooking the Projects that they have assigned to Fidesto.

Mr. Vipul Kumar Garg believes that 'Only Work, Works.' As he says, "We are a team of qualified professionals who are passionate and dedicated towards work. We look after each Project's Design Coordination for all possible Value engineering in Design before execution. We implement Fidesto's "Standard Operating Procedures" for execution through its well-qualified and competent Engineers to ensure Quality, Safety, Progress, HSE and finally, the Project Closeout".

To stay ahead, the company provides regular training on both technical and managerial aspects. They have already set up the process of defining SPOC, circulating defined Agenda before any formal meeting, floating Minutes of Meeting after meeting, tracking of the same, effective email communication, effective WhatsApp group system internal as well as with clients.

 Director

Vipul followed the path of hard work & commitment of Garg Senior. Vipul's father commenced his illustrious career as a Station Master in the Indian Railways, steadily rising to a Station Superintendent with an impeccable Accident-Free Service Record. Vipul's fervor for Civil Engineering led to a Bachelor's Degree from Amravati University with a Gold Medal, followed by a Master's in Engineering from IIT, Roorkee, and an MBA in Finance. His getting relentless pursuit of knowledge led to publications in national and international journals, along with recognition for technical presentations. Driven by a desire to leverage his skills fully, he embarked on an entrepreneurial journey, founding Fidesto Projects Private Limited inspired by his close friend with unwavering support from his very supportive & collaborative visionary spouse & brilliant daughter.

# FIDESTO

## Providing Project Management Consultancy with Vision & Dedication

In today's rapidly evolving business landscape, the Project Management Consulting services industry is experiencing dynamic changes driven by technological advancements, changing customer expectations, and a growing emphasis on efficiency and effectiveness. The industry is undergoing significant transformations as businesses adapt to the evolving global landscape. Several trends are shaping the industry, including the widespread adoption of agile methodologies. The growth of the Project Management Consulting services industry can be attributed to factors like; the increasing complexity of projects necessitates specialized expertise. Despite the growth and advantages offered by the industry, consumers encounter certain challenges. Many organizations lack in-house expertise to manage complex projects, prompting them to seek external consulting services. In evolving trends, complex projects, and growing challenges, Fidesto stands as a trusted Project Management Consulting firm. Its expertise aligns perfectly with the industry's shifting demands, and its team of professionals is dedicated to ensuring project success.

Fidesto is a burgeoning professional Project Management Company that approaches every project with a comprehensive 360-degree vision. Committed to serving esteemed clients and ensuring the successful realization of its projects, Fidesto stands out with its end-to-end approach and the core principles of Humbleness, Honesty, and Hard work – the 3 Hs that is their soul & define its service ethos. By acting as the trusted Single Point of Contact (SPOC) for clients throughout the project management lifecycle, the firm has redefined ownership and commitment in the realm of project management. This article explores how Fidesto's unique philosophy and approach set them apart in the market and have garnered the trust of clients.

### End-to-End Project Management Services

Fidesto firmly believes that the foundation of successful project management lies in humbleness, honesty, and hard work. These principles guide its interactions with clients and team members alike, fostering a culture of mutual respect and transparency. The company recognizes that project management is not just about technical expertise; it also hinges on effective soft skills development. Regular training sessions on technical and managerial aspects ensure that Fidesto's team remains well-rounded and capable of handling complex projects efficiently. One of Fidesto's key strengths is its commitment to take complete ownership of clients' projects. From the conceptualization and planning stages to design coordination, award strategy, end-to-end monitoring, quality control, safety assurance, and project handover, the company remains dedicated at every step. "By providing seamless services during pre-construction, during construction, and post-construction stages, we ensure that clients can rely on our working process & practices throughout the project's lifecycle", says Er. Vipul Kumar Garg, Director at Fidesto.

### We Believe that 'Work Only Works'

In addition to its exceptional Project Management Services (PMC), Fidesto expanded its horizons to offer comprehensive End-to-End Engineering, Procurement, and Construction (EPC) Management services. By assuring full responsibility for projects from inception to completion, Fidesto ensures a seamless and hassle-free development process. Clients can trust Fidesto to handle all project-related activities with dedication and tireless effort.

### Innovative Operating Procedures

Fidesto stands out in the market due to its innovative and well-defined Standard Operating Procedures (SOPs). These procedures cover various aspects, including design coordination, quality management, safety protocols, overall construction management and cost control & other such required works in the intend of the project. Moreover, Fidesto excels in anticipating upcoming challenges and offering valuable suggestions to safeguard the project's success. This attention to

detail and proactive approach sets them apart from their competitors and has earned them a reputation as a benchmark for integrity and commitment. Its journey has been nothing short of fantastic, owing to the relentless efforts of its dedicated team and the unwavering support of its respected clients. With clients spread across various geographical locations in Pune, Mumbai, Ranchi, Panvel, Navi Mumbai, Nanded, Nagpur, NCR Delhi and more, Fidesto's reach extends far and wide. The trust it has earned from clients allows the firm to relieve clients from the minutiae of project management, as it takes over the entire process from conceptualization to design development and execution.

Fidesto has emerged as a prominent player in the realm of professional project management by adhering to its 360-degree vision and has elevated its services to unmatched levels of excellence. As Fidesto continues to blaze new trails in the industry, it solidifies its position as a reliable partner for clients seeking a successful and seamless project management experience. "With a growing list of satisfied clients and a widening geographical reach, our mission to provide professional, dedicated, and value-based project management services remains stronger than ever", concludes Er. Vipul Kumar Garg. **439**
